To All Parties Following The Energy Commission's DG OII Proceeding 04-DIST-GEN-1, 03-IEP-1:

Pursuant to discussions at the past three Rule 21 Working Group meetings and subsequent discussions with Commissioners Geesman and Boyd, the Integrated Energy Policy Report Committee is making the following schedule modifications to the 8/17/04 Scoping Order schedule in the **Energy Commission's DG OII**. While this e-mail is being docketed today, this information will be repeated in an upcoming IEPR Committee Hearing Notice.

The most significant change is the combination of the Rule 21 Working Group Recommendations document (originally due November 1) and the Energy Commission staff report originally due on November 10. The combined report is now due on November 10. We also have a confirmed date for the IEPR Committee hearing, which will be held in Sacramento at the Energy Commission on December 10. The table below shows the revised schedule in this proceeding:

Rule 21/CEC Staff Interconnection Report Released	November 10, 2004
Public Comments Due on Interconnection Report Recommendations	November 30, 2004
IEPR Committee Hearing	December 10, 2004 at the Energy Commission in Sacramento, CA (Start Time 9 am)
IEPR Committee Recommendations Released	First Week of January 6, 2005
Public Comment Due On IEPR Committee Recommendations	January 20, 2005
Energy Commission Adoption Of IEPR Committee Recommendations	February 2, 2005

Consistent with our previous intent, recommendations adopted by the Energy Commission on February 2 will be forwarded to the CPUC for final adoption in its DG OIR R.04-03-017.

If you have any further questions at this time, please do not hesitate to contact me.
